

NetSkeme® June 2021

What's New

NetSkeme® What's New

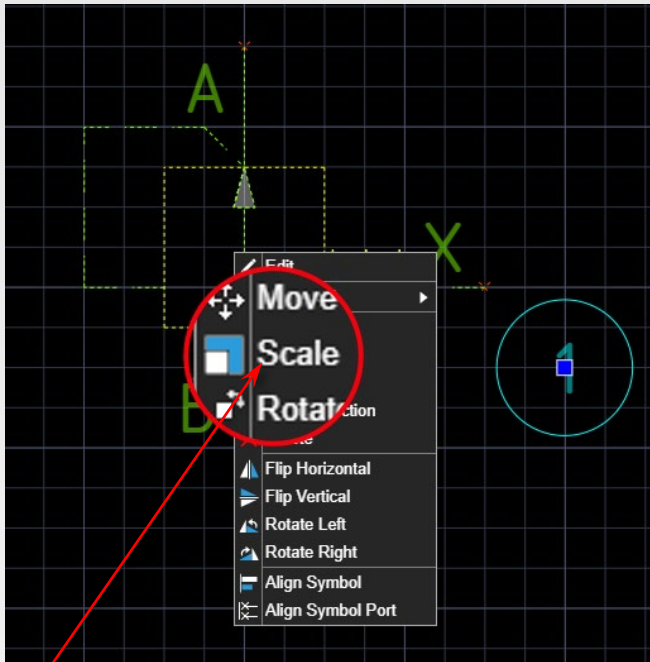

Enhancements

Scale Symbol

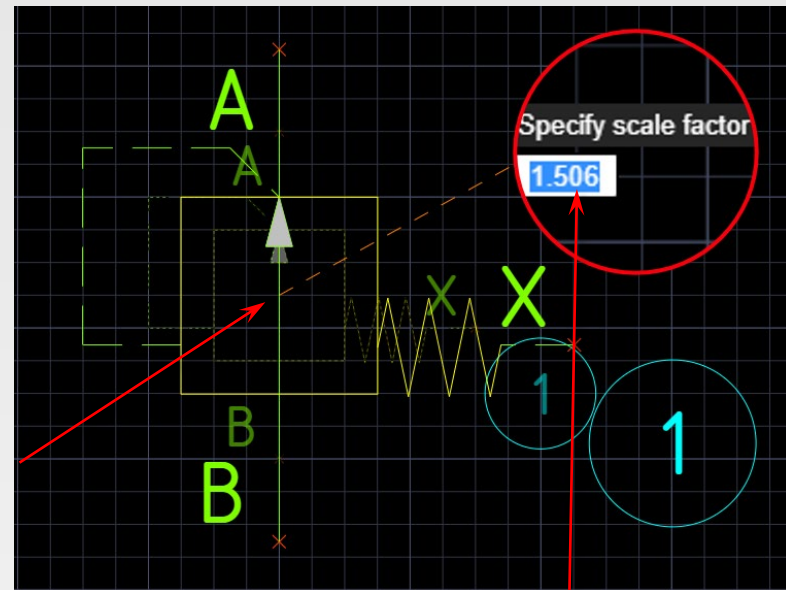

Automatic Naming of File

Scale Symbol

Resize any symbol inserted within the drawing canvas*

Right-click on symbol to select Scale

Select a base point and move cursor to resize

Alternatively, define the scale factor in the text box for precise scaling

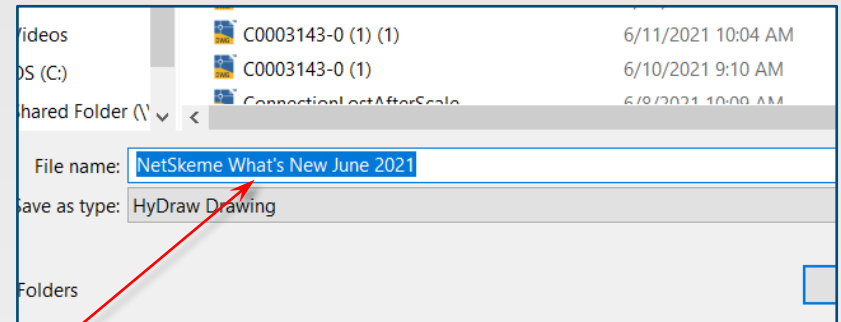

*Currently, only ports and symbols can be scaled.

The ability to scale tables and drafting entities will be added in a future release.

Automatic Naming of File

Title within the title block becomes the default file name

TITLE
